PELVIC FLOOR MUSCLE THERAPY
AND REHABILITATION

You have been recommended for Pelvic Floor Muscle Therapy and Rehabilitation.

The cost for each visit can exceed \$1000.00.

Although most insurance plans will cover this service, we **strongly recommend** that you contact your insurance carrier to obtain your **exact benefit level for this service**. The pelvic floor therapy typically consists of multiple codes and any combination of the codes listed below may be billed to your insurance carrier. These services may go towards an out of pocket expense and we ask that any deductibles, coinsurance or copayments be paid at the time of your visit.

To help estimate your cost, please provide the codes below to your insurance carrier and ask for the benefit available for each code. This is **important** because insurance **carriers apply a different benefit to each code** (i.e., two of the codes are physical therapy, one is surgical, and the other is diagnostic). **If Prior Authorization is required please notify our billing department.**

<u>Code</u>	<u>Benefit Available</u>	<u>Is Prior Authorization Needed?</u>
91122	(Diagnostic)	Yes or No
51784	(Surgery Benefit)	Yes or No
97750	(Physical Therapy Benefit)	Yes or No
97032	(Physical Therapy Benefit)	Yes or No
90911	(Diagnostic)	Yes or No
90875	(Diagnostic)	Yes or No
90876	(Diagnostic)	Yes or No

When giving above codes ask these questions: Do I have a deductible? How much is it? Does my deductible apply? Is Authorization needed?

Name of Representative: _____ Reference # _____ Date of Call: _____

****If you do have a deductible please call our billing department. We will provide you with an estimated cost. This cost will be expected at the time services are rendered.**

Pelvic Floor Physical Therapy Appointments last approximately 1 hour. **** A minimum of 24 hours cancellation notice is required for all appointments, as referenced in our No Show Policy****

If you have any questions *after* verifying your insurance benefits, please contact our billing department at (603) 742-2424 for assistance. Thank you.
